	TYPE:	Medium
	LOC:	N/A
	DURATION:	120 MINUTES

Working tools and delivery requirements

- **Working tools:** Visual Studio Code
- **Delivery:** Source code in a compressed archive (zip extension is required).

Technologies

The product illustrates:

- HTML and CSS Essentials
- Practice to use HTML and CSS to create a static website

Technical Requirements

- Follow the standard naming and coding convention.
- Given a file called **css-e.exams.opt2.zip**, extract and use it as your root project
- To submit your work you must zip and add your account to the zip file.
 - Example if your account is AnhNV then you must create a project called: **AnhNV_css.exams.opt2**

Problem 01: Build a website for Travel Agency

Overviews:

You are working as Front-end Developer for FA Travel Agency the leading Travel Company. You have to implement the new site as the old one is so out-of-date. Given the design from **Travel Agency.png** file, you have to implement the layout for the new website. Other resources are stored inside **resources** folder.

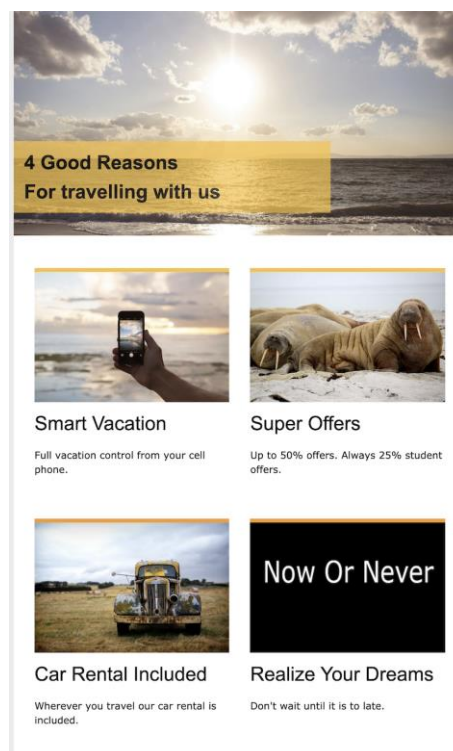

Figure 1 - Website overview

Requirements:

1. The Layout must match the design
2. Website is clean and easy to follow
